DETAILED ACTION

Specification

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

Allowable Claims

2. **Claims 7-12** are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding **claims 7 and 12**, in combination with other limitations of the claims, the prior art of record fails to disclose or specifically suggested transmitting to the communication terminal, in response to receipt of the request for transmission of e-mails from the communication terminal, a second e-mail of the received e-mails stored in the electronic mailbox and addressed to a second e-mail account of the plurality of e-mail accounts, wherein the second e-mail account has the status of which is represented as inactive by the e-mail account flag included in the record that corresponds to the second e-mail account.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
